

The Gleichen Call

NINETEENTH YEAR, No. 26

GLEICHEN, ALBERTA, WEDNESDAY, SEPTEMBER 16, 1925

SUBSCRIPTION \$2.00 A YEAR

MINUTES OF BLACKFOOT M.D. MEETING NINTH MEETING 1925

Minutes of the regular meeting of the Council of Blackfoot M.D. No. 218 held in the Municipal Office, at Gleichen, on Tuesday, Sept. 8, 1925, at 11 a.m.

Present: Reeve Thorssen, Deputy Reeve McBean and Councillors Rasmussen, Maynard, Dunstan and Daw. The minutes of the previous meeting were read.

Coun. Rasmussen objected to the clause in the minutes which stated that the councillor for Division 2 was held up in his work on the market road on account of the work on the market road in Division 4 not having been completed.

Coun. Maynard: That this clause be struck out of the minutes and the balance thereof adopted as read. Carried.

Coun. Rasmussen: That consideration of the minutes of the meeting of the delegates from several nearby municipalities held at Strathmore on August 6th last be left over until next meeting. Carried.

Regarding the completion of the market road the road commissioner reported that he had taken the matter up with Mr. Graham, resident engineer, who advised that owing to the lateness of the season it would be impossible to have a government crew undertake the work this year. He also reported having tried to get the work done by a local crew under a competent foreman who, after viewing the work proposed to be done, reported that he could undertake the work after threshing but owing to the condition of the soil at the present time he was doubtful if the work when completed would be approved by the resident engineer.

Considerable discussion took place as to the advisability of trying to complete this work this fall. The road commissioner was very doubtful if value could be secured for money spent on work undertaken at this time of the year owing to the dry condition of the ground.

Councillor Rasmussen felt sure he could complete his part of the work this fall to the satisfaction of Mr. Graham and stated he was making arrangements accordingly.

Councillor Dunstan stated that under favorable conditions he might be able to finish that part already undertaken by him.

The question was then raised that in event of the work on this road not being approved by the resident engineer thus cancelling our appropriation therefor, where was the money coming from to pay the expense incurred.

Coun. Maynard: That, if a councillor undertake to build the market road in his division and the work when completed fails to pass the inspection of the government engineer thereby causing the municipality to lose the grant set aside by the government for that purpose, the cost of such work so undertaken be a charge against the appropriation of the division of such councillor. The motion was declared carried on the following division: For the motion Reeve Thorssen, Deputy-Reeve McBean and Councillors Daw and Maynard. Against the motion: Councillors Dunstan and Rasmussen.

A letter from the British American Oil Co., Calgary was read in which that company stated that as they had closed their place of business at Chancellors in July 1924 they were requesting a refund of the business tax paid last year.

Coun. Dunstan: That the request of the British American Oil Co. for a refund of the business tax paid in 1924 be refused. Carried.

The road commissioner reported having investigated the opening of the road between 19 and 20 and 30 and 31 in 23-21-4 as requested by petition placed before the council at their last meeting. He could not appear at the meeting.

School Fair Sports Prizes Friday, September 18th

The following is the prize list offered for athletic events at the Gleichen School Fair:

Boys running race, 13 to 15, 1st running shoes; 2nd flannel shirt, by Stabback & Brown.

Girls three-legged race 1st hair cut, 2nd hair cut, by E. Menard.

Relay race 4 pupils from each school, four jackknives, by W. H. James.

Boys high jump under 15, 1st running shoes, 2nd running shoes by Milton Wade.

Boys high jump and over Girl high jump, eversharp pencil by A. R. Yates.

Girls long jump, under 15, broach by Gleichen Jewelry.

Girls long jump 15 and over, glass fountain pen, winners name engraved, by F. E. Pobst.

Boys long jump, under 15, 1st running shoes, 2nd running shoes, by T. H. Beach.

Boys long jump, 15 and over, 1st jack knife, 2nd jack knife, by Flanagan Bros.

Half mile race, riding bridle and bit, by J. O. Bopstie.

Tug-of-war, 8 on a side, boys or girls.

BOW RIVER RIDING LIBERAL MASS MEETING, CALGARY Tuesday, September 22nd

A Bow Valley Federal Liberal convention will be held next Tuesday, September 22, in Penely's Dancing Academy, 334A Eighth Ave. W., Calgary, to select a candidate to contest this constituency and to organize an association. Among the speakers will be the Hon. Chas. Stewart, Minister of Interior of Canada. The convention will be in the nature of a mass meeting to which all Liberals are invited.

The boundaries of the Federal Constituency of Bow River are as follows:

Consisting of Townships 18 to 22 both inclusive, ranges 17 to 24 both inclusive; Townships 22 to 26 both inclusive, ranges 17 to 27 both inclusive; Portion of township 27 in range 18 south of Red Deer river; Township 27 to 29 both inclusive, in ranges 19 to 27 both inclusive; Portion of township 30, in range 21, west of the Red Deer river; Township 30, in ranges 22 to 27 both inclusive; all west of the Fourth Meridian.

On Sunday, September 13th, Mrs. Anna Naylor, who resides about three miles north of Gleichen, duly observed her 79th birthday, at the home of her daughter, Mrs. J. R. Allgood, when a number of friends and relatives were present, including several relatives who came all the way from Ontario to be present. A most enjoyable afternoon was spent and many gifts showered upon the good lady, who still enjoys good health and was able to blow out the full 79 candles. May she continue to enjoy life and all things good her many friends will join The Call in hoping.

where snow capped mountain and massive icefield, brawling mountain stream and hurtling water fall, placid lake and valley, vie in giving pleasure to the lover of beauty—in a word, Jasper National Park, set aside by the Canadian Government for Canadians and their visitors. After a breakfast fit for the gods we were given a motor trip to Mount Edith Cavell, thirty miles return. This highway affords good motoring and, by a course of wide sweeping switch-backs, its altitude increases by nearly 2,000 feet, giving the tourist an ever changing series of most striking and beautiful panoramas of mountains and valleys unequalled on the continent. The road to Mount Edith Cavell ends at an altitude of 6,500, but its surveys continue and doubtless will be completed by next year. The party, however, walked on up the trail a half mile where a splendid view of the Cavell glacier was obtained.

Then after luncheon another drive was to Maligne Canyon twelve miles return. This canyon is a natural phenomenon which ranks among the most extraordinary and awe-inspiring within Jasper National Park. The route lies over a gradually ascending and winding roadway from which the tourist obtains magnificent views of lordly mountains and charming vistas of the Athabasca Valley.

The rest of the afternoon was spent in loafing about the lodge, where boating, swimming and fishing may be indulged. But a few choose to have a peep in the kitchen and were well repaid for the curiosity, the manager being most courteous in showing the wonders of the culinary department, which only added to the enjoyment of the excellent dinner served shortly after.

The party that evening was taken back to the station and left east and west for their homes with the hope of meeting again next year at Victoria, B. C. as the guests of the B. C. association.

Three Press Assoc. Visit Wonderful Jasper Pass

Saturday night the Canadian National Railway representatives took charge of the members of the three press associations and right royally did they treat us. At nine that evening we entrained and after a good night's sleep arrived at Jasper Park where at 7 a.m. autos awaited our arrival and conveyed us to Jasper Park Lodge over well graded and oiled roads winding three miles upwards through beautiful groves of pine trees, allowing glimpses of streams, lakes and mountains of wonderful grandeur.

The Lodge is a beauty spot in nature that once seen can never be forgotten, more especially by visitors from the prairie—it seemed like a new world. It has accommodation for 350 guests, is a model of rustic architecture. Here the visitor finds a great central lodge, built entirely of peeled logs and native boulders; the largest log building on the continent. In this main Lodge facing Lac Beauvert, is a large lounge, dining room, card rooms, barber shop, ladies retiring lounge with manicure and hair-dressing parlors, shower baths, bedrooms with private baths or bath connections, ticket and telegraph offices. Spacious verandahs overlooking the lake provide a charming outlook, where lake, forest and towering peaks combine to attract and hold the eye of the beauty lover, while grouped about the main lodge are the cabins, varying in size and containing from two to twelve rooms where visitors may have the privacy of their own homes with all the conveniences of modern hotel service. Each lodge has bathroom and veranda, and some are rendered more attractive by the addition of sitting rooms and sleeping porches. None of these bungalows are more than a couple of minutes walk from the main lodge where the guests gather for their meals in the large dining room or on the spacious verandahs during the warm summer days.

Space will not permit of the description such a visit deserves, but it is said Jasper Park is a national playground, 4,400 square miles in extent; twice as large as the province of Prince Edward Island and almost as large as the state of Connecticut.

Five loads of coal had to be left on the road last Wednesday owing to the heavy rain.

John Nordquist, our leading dairyman, says he is well pleased with the price of cream. 37c for butterfat is a good price at this time of the year.

Chris Hansen thinks this country far ahead of anything he saw across the line while away. He says he is going to stay with us this time.

The threshing has been held up since last Wednesday forenoon, the 9th, some having just started that morning after being stopped for four days. All the farmers are busy setting up stocks that were blown down by the high winds during the latter part of August.

H. B. Grant, of the Deer Lodge Farms has 1000 acres summer fallowed ready for next season's crop. It was all plowed early and worked down in good shape. H. B. is giving up stubbling-in and is likewise keeping down the weeds.

The crop yields cannot be given as accurate at the present date.

Carl Sheets threshed 85 acres of summerfallow that went 28 bushels to the acre.

H. Dankwerth threshed his stubble at home and made 23 bushels.

L. Selgensen threshed one field of summer fallow that averaged 30 bushels.

Owing to the threshing being held up there is very little grain threshed in the district.

The Sunday School Rally Day gathering in connection with the United Church Sunday School will be held next Sunday at the regular school hour. The program prepared by the National Council of Religious Education will be followed. The theme this year is Loyalty to Christ. Attendance last Sunday was one hundred and thirty-three. Parents and friends and the public generally are asked to attend this gathering.

THE

WORLD HAPPENINGS
BRIEFLY TOLD

The British minister to Switzerland, on behalf of India, has signed the opium convention adopted at Geneva last February.

Belgium's first proposal for the refunding of its \$480,000,000 debt to the United States was found unacceptable by the United States commission.

The Daily Express, Lord Beaverbrook's paper, suggests that Earl Beatty, admiral of the fleet, is qualified to be Lord Byng's successor as governor-general of Canada.

It is stated that the Soviet Government placed contracts for cotton valued at \$200,000 sterling with various Lancashire firms that would keep the looms busy for several weeks.

Austin A. Nelson, a passenger, was killed, and Worthington R. Kemp, pilot, was seriously injured when Kemp's aeroplane fell 200 feet at Packard Field, Detroit.

Admiral Sah-Cheng-Ping, veteran commander-in-chief of the Chinese navy, in his report to the Peking Government urges it to stand firm in a demand for complete Chinese "freedom of the seas."

A daily air line service, carrying mail and passengers, has been started between Berlin and Moscow. By connecting with other air lines, one can go from Moscow to London in 30 hours.

An hour after Hampton Zeigler, 21, bought an aeroplane from W. R. Coe at Los Angeles, both men fell to their death in the machine which went into a tail spin while Coe was teaching Zeigler how to fly.

An anarchist attempted to assassinate King Alfonso, of Spain, as he entered the casino at Saint Sebastian, but he was seized before he could fire his pistol, according to a dispatch received at Paris.

Miss Mona Bates, Canadian pianist, using the name "Anon. Setab," has won enthusiastic recognition in Vienna and Dresden, Germany. On one occasion she had the pleasure and honor of playing on the old piano used by the great master, Franz Liszt.

Sir Park Goff, one of the most learned members of the British House of Commons, has been selected by the British group which is to attend the international parliamentary conference at Washington in the fall, to lecture for them on the subject of disarmament.

Gave Two Orations
At Own Funeral

Farmer of Davenport, Iowa, Made Phonograph Records Before Death.

The voice of the dead delivered two orations at the funeral services for Charles W. Lau, wealthy retired farmer and former member of the school board.

In order to have a farewell heart-to-heart talk with his family and friends, and that he might criticize present conditions in the churches, Mr. Lau, three months ago, went to a Chicago laboratory and had two addresses inscribed on phonograph records.

He died. The two addresses were delivered through the phonograph, one at the services at the home and the other at the crematorium.

Has Model Lifeboat

Dutch Engineer Claims His Invention Cannot Capsize

Herr Schutteveen, of Rotterdam, a Dutch naval engineer, has invented a lifeboat which he claims cannot capsize and gives the occupants the fullest protection against exposure to the weather. The first experiments on a small scale were entirely successful. The inventor, with six friends, plans to sail the latest model of his lifeboat from Rotterdam to London, and thence to New York as the final test. The model now being constructed is 25 feet long, eight feet wide, and 4½ feet deep.

Will Penalize Bachelors

Bachelors in the Free State civil service in future will find that the unmarried state will subject them to penalty. An order has just been issued providing an equal pay basis for unmarried men and women. On their marriage, men employees will receive a lump sum and automatically become entitled to an increase. Women employees who wed will be forced to retire from the service, but will be given a substantial dowry.

Determined To Get Education

In Europe there are 250,000 students who are hungry and ragged, but who are determined to secure an education. Many of these have been aided by the European Student Relief, which was organized under the World's Student Christian Federation.

Criticizes Political Book

Winston Churchill, Resents Things Said About His Father

The recent controversy between the sons of William Gladstone and Captain Peter Wright as a result of reflections on the great British statesman's private life in Captain Wright's book, "Portraits and Criticisms," has been revived by Winston Churchill, chancellor of the exchequer.

The chancellor of the exchequer says, "Uncensored Recollections" is a series of libels on various public figures, now dead, who played prominent, if not principal, parts in public life. References are made in this book to Winston Churchill's father, Lord Randolph Churchill, "who rose to the top of the political tree by a liberal use of insolence."

"From the point of ability, character and brains," the book says, "Lord Randolph Churchill was quite of the ordinary class, vastly inferior to his brother and without the genius, high courage and splendid patriotism of his son, Winston."

The book contains even more severe reference than this to Lord Randolph Churchill.

The publisher of "Uncensored Recollections," in an interview, says rather a long time has elapsed since the book was published to think of withdrawing it now. He says that within six months his firm published another book in which most favorable references were made to Lord Randolph Churchill.

Have Made Remarkable Request

Moros Tribesmen Ask Manila Government For More Roads and Schools

Old tribesmen of the Moros, tough, ancient, battle-scarred veterans of tribal clashes and wars against the white man, have laid a remarkable request before the Manila Government. They have appealed for "more roads and more schools."

Thirty years ago the Filipino of the "wild tribes" was content with a nipa shack, a gourd of water, a jungle trail, a few hens and a good, sharp bolo. A fairly good trade rifle impressed him more than a dozen schools. If he wanted to go anywhere he found a trail. Civilization is working in the Philippines. A few half-caste politicians are the moving forces behind the independence movement. The mass of the population is content to have the American stay. The white man's foot in the Philippines has meant a long peace. The white man brought schools and he lays down roads. There is more wisdom in these old Moros than in the Filipino just now working for an independence for a people who neither desire nor are ready for it.—New York Evening Post.

For the first time in Canada the metropolitan system of dividing large cities into postal districts or zones is to be attempted, according to advice received by Postmaster Jno. Nichol at Regina. The new system is to be tried out in Toronto, and if satisfactory, will be introduced into Montreal.

The object of the new scheme is to speed up the sorting and delivery of mail in the larger cities. Toronto is to be divided into ten postal districts, all of which will have a special number from two up to 12, excluding seven and eleven.

When addressing a letter to Toronto henceforth, the proper method will be to include the number of the postal district to which the letter is being sent. Thus mail for John Smith living in district number two should be addressed:—Mr. John Smith, 196 College Street, Toronto 2, Ontario.

Call Relief Conference

Jews Will Meet in Philadelphia on September 12

Plans for continuing relief to their co-religionists in Europe and Palestine, with special reference to a project for settling 100,000 Jews in Russia as farmers by the end of 1927, will be considered at a nation-wide conference of Jews to be held in Philadelphia, Sept. 12. The call for the conference, which has been issued by David A. Brown, president of the general necessities corporation, New York, and is signed by over 200 leading Jews from all parts of the United States, describes the dates of the conference as important days in the history of American Jewry. Fifteen million dollars is the amount which, it is estimated, will be necessary to carry out the plans that will be submitted to the conference.

In one hundred years the population of England has grown from eight million to thirty-two million. This is a natural increase, as emigration is greater than immigration in England.

What British Authors Earn

Hall Caine Heads List With Yearly Income of \$500,000

A writer in the London Evening Standard has been giving to his public some information on the incomes of living British authors. His disclosures contain some interesting surprises. At the top of the list stands Hall Caine with an income of \$500,000 a year. More than a million of Caine's books have been sold within the last three years; no play of his has ever failed, and he adds to his income from sale of the motion picture rights.

Next comes James Barrie, who has made as much as \$220,000 in a year out of his novels and plays. "Peter Pan" alone brought \$250,000 in royalties to him. Such an income from delicate and whimsical fantasies must provoke both envy and bewilderment in those who write solely for money and have always imagined that the one road to wealth was through "red blooded" stuff or through audacious novels heavily flavored with sex.

Incomes of \$100,000 a year are achieved by H. G. Wells, Bernard Shaw, W. Somerset Maugham and E. Phillips Oppenheim. Mr. Wells is credited with having made \$800,000 out of his "Outline of History." Arnold Bennett's average income is put at \$30,000 a year.

Identified After Eleven Years

Boot Gives Clue to Name of British Officer Killed in 1914 Near Ypres

Part of a boot taken from the body of an unknown British officer during recent exhumation and re-burial operations in France and Flanders has established his identity.

The boot was sent by the Imperial war graves commission to a firm of Cambridge bootmakers, whose name was on it.

The commission had reason to suppose that the officer belonged to the Yorkshire Regiment (Alexandra Princess of Wales' Own), and fell in action on October 21, 1914, in the Ypres neighborhood.

One of the officers then killed was Lieutenant R. Walmesley, of the 2nd Batt. Yorkshire Regiment, and the bootmakers have identified the portion of the boot as belonging to a pair they supplied him in 1914. At the time Lieutenant Walmesley joined the army he was at Magdalene College, Cambridge. His home was at Hinton.

His name will be put over the grave in which his body has been re-buried.

Says Disarmament Foolish

Bolshevism Menace to World Peace Opinion of Lord Burnham

"Any nation following the policy of disarmament is sure to be rudely awakened. The world is not yet ready for such a course."

This is the statement made by Lord Burnham, proprietor of the London Daily Telegraph.

Lord Burnham believes that disarmament is foolish so long as the dark cloud of Bolshevism hangs over the world. As president of the international labor conference of the League of Nations and member of the House of Lords, Lord Burnham has seen figures which England received through private channels showing that the Bolshevik army runs into millions of recruits. The report showed an army of 400,000 at Moscow alone, he said.

Trans-Atlantic Air Service

London to New York in 38 Hours Is Plan

Plans for a trans-Atlantic aeroplane service, using double-decker planes with accommodation for 150 passengers and capable of making the run from London to New York in 38 hours, have been announced by Joseph Navarro, veteran British aircraft designer. According to the designer, the planes will have a wing spread of 185 feet. They will be equipped with nine 450-horsepower engines each, and will provide spacious accommodation for passengers.

The fare for a single trip will be about 55 pounds sterling per passenger.

Plan Great Engineering Feat

If a bridge is built across the Golden Gate it will be the greatest mechanical engineering feat in history. The bridge planned will be 4,000 feet between piers, or double the length of any bridge in the world. The towers will be 1,000 feet high and the total length of the bridge, 6,040 feet.

Appreciate Programmes Near Home

Radio fans over the country are losing something of their original zest for long distance and are coming to appreciate more fully the excellent programmes of their own nearby broadcasting stations. It is in this direction that radio progress is to be made.

The leaning tower of Pisa is now illuminated with electric lights.

The Well-Dressed Boy's Summer Suit

Age counts when you are dressing the boy, and there is nothing more serviceable, nothing neater in appearance, and for summer coolness than the wash-suit, which has long been a favorite with the little chaps. Fast-color Devonshire cloth fashions the suit of striped material, with its center-front closing under a flat plait trimmed with buttons. The neck is high and the collar is comfortable-fitting. The long sleeves have a turn-back cuff, and set-in pockets trim the front of the jacket. The straight knickerbockers fit well and have side closing. The little fellow wears a suit of blue percale with short sleeves, and narrow frilling outlining the cuffs, collar and front plait. Sizes 2, 4 and 6 years. Size 4 years requires 1½ yards of 35-inch, or 1¾ yards of 36-inch material. Price 20 cents.

Our Fashion Book, illustrating the newest and most practical styles, will be of interest to every home dressmaker. Price of the book 10 cents the copy. Each copy includes one coupon good for five cents in the purchase of any pattern.

Says Aeroplanes Will Have Steam Engines

British Expert Sees Great Change In Future Development

The use of steam engines in aeroplanes was predicted by Dr. John S. Haldane at the annual meeting of the Institute of Mining Engineers at Cardiff, Wales.

In the course of a paper on coal and steam, Dr. Haldane said in the very near future he believed steam engines would take the place of internal combustion engines to a very great extent, and that future development of the steam engine would be along the lines of increased steam pressure with smaller and lighter engines. The complete engine and boiler would be much smaller and lighter than an equivalent internal combustion engine, and would in all probability be more suitable and even superior for use in aeroplanes and motor cars.

Another scientist, Sir John Cadman, said he looked upon oil as a phase which was passing. What oil was doing today coal would do again tomorrow, although oil would go into certain channels of use which coal would never again be able to regain.

A Rotor Aeroplane

A monoplane flying on the rotor principle and capable of a speed of three hundred miles an hour is the invention credited to an Austrian engineer. The inventor claims his machine will rise almost vertically and will be able to cross the Atlantic in twelve hours. The British air ministry is reported to be interesting itself in the invention and is said to have offered to build an experimental model according to the inventor's specifications.

New Type of Breakwater

A new kind of breakwater is being experimented with in California.

It is simply perforated pipe laid a short distance under the water. Compressed air is pumped into the pipe, and the bubbles that result are said to break up the waves effectually.

Governor-General Has Returned From North

Was Guest of Missionaries, Traders, Indians and Eskimos

After journeying thousands of miles, which carried him into the farthest-most regions of Canada's northern hinterland, His Excellency Baron Byng, Governor-General of Canada, has returned to civilization.

It was the first time that such a trip had been undertaken by any governor-general of the dominion, and, during the long trip, the party encountered much of the hardship experienced by the scattered population of the north country, obtained a keener appreciation of the vastness and possibilities of the Dominion, and came into personal contact with native Eskimos, Indians and members of missionary and trading outposts.

At Aklavik, Baron Byng inspected the principal buildings and chatted with members of the tiny settlement. He visited the outlying regions and stopped at an Eskimo fishing camp near Kittigaruit. The governor-general's appearance was a complete surprise to the natives, but they were equal to the occasion, and after greeting him in their peculiar fashion, they entertained their visitors at a breakfast of fish and tea. Speeches of welcome were delivered, and his excellency was presented with a number of native souvenirs.

On the return journey, stops were made at a number of points.

Enjoyed Canadian Trip

Earl Haig Says Canada Is Most Wonderful Country

One of the first questions put to Field Marshal Earl Haig on his arrival at Glasgow after his recent visit to Canada, was as to the possibility of his being the next governor-general of the Dominion, which was suggested while he was there.

The field marshal replied that he was now in his 65th year, and would like a rest, but after a pause he added:

"I would feel greatly honored, though, if offered the position."

Earl Haig said Canada, indeed, was a most wonderful country, and it offered good prospects to anyone prepared to work hard, as the people certainly did there.

Earl Haig said he greatly enjoyed his visit to the Dominion, particularly the Jubilee celebration in Calgary.

Collects Real Canadian Flowers

Four Hundred Varieties in Lady Byng's English Gardens

The secret of Lady Byng's decided preference for the great out-of-doors and the beautiful gardens of Canadian houses rather than the formality which marks receptions indoors was revealed during the visit to Victoria of the governor-general of Canada and his popular lady.

Lady Byng is an ardent lover of flowers and a keen gardener. Since she came to Canada she has collected no less than 400 different varieties for the beautiful gardens of her English home. Accompanying the plants to England have gone careful instructions that they are to receive the best of attention. Of the 400, only twelve have failed to thrive after being transported across the Atlantic and transplanted in English soil.

Accepted Valuable Diamond

Stone Given To Prince Is Probably Worth \$10,000

The Prince of Wales has refused a 65 carat diamond in Kimberley, but has accepted one of 12 carats. Even the 12 carat stone is so large that there are few, if any, of that size in Toronto, although they can be obtained, in the regular way, in New York or London. The 65 carat stone, on the other hand, is so large as not to be a commercial proposition—comparing in size, probably, with a twenty-five cent piece. A 2 or 3 carat stone is worth about \$600 per carat, but this value increases with the size of the stone, and the one accepted by the Prince would probably be worth \$10,000. It would be difficult to value the larger one.—The Toronto Star.

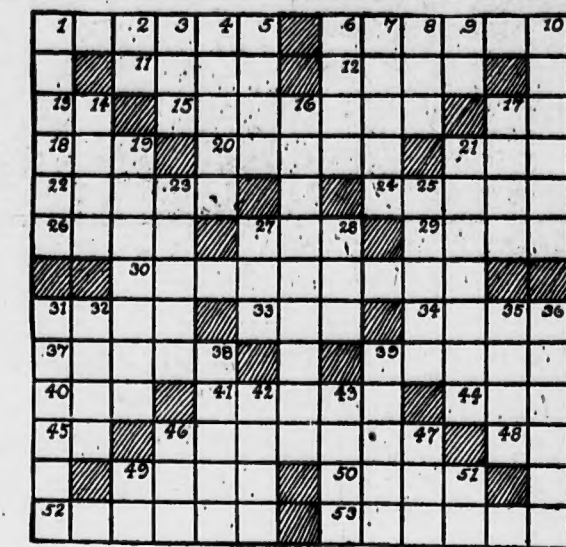

Children Get Bigger

The average British school boy and girl have grown to such an extent, apparently through the increase of outdoor exercises, that desks supplied in the schools are not by any means large enough. Boys of five feet ten inches, and girls of five feet eight inches are not uncommon in London schools, and it has been decided to supply desks of large size to meet the improved development of school children.

Why Worry

There was a crash of dishes from the kitchen. "Sarah!" cried her mistress. "What are you doing?" "Ain't doin' nothin', ma'am," said Sarah calmly. "It's all did."

OUR CROSSWORD PUZZLE

Horizontal

- 1—Grave.
- 6—A case in Latin grammar, usually indicated by to.
- 11—A plant from which a bitter cathartic is obtained.
- 12—In bed.
- 13—Ecstatic exclamation.
- 15—To make level or thinner.
- 17—Pronoun.
- 18—An intoxicant.
- 20—Something that gives pleasure.
- 21—A cavity.
- 22—Embroidery silk.
- 24—Overturned or scattered by accident.
- 26—Not fast.
- 27—to irritate.
- 29—Short poems.
- 30—Can be divided.
- 31—to transport.
- 33—Do.
- 34—God of love.

Vertical

- 1—Decorative neck wear.
- 2—Sixth tone.
- 3—Dwarf.
- 4—Sloughs off.
- 5—Close.
- 6—Facts.
- 7—Aids.
- 8—Much-used number.

9—Contraction of I would.

- 10—Builds.
- 14—Husk.
- 16—Long magnifying instrument.
- 17—Man.
- 19—More modest.
- 21—Pertaining to the stars.
- 23—Brushed.
- 25—Propelled.
- 27—Route.
- 28—A carved memorial post.
- 31—Even; flat.
- 32—to understand by sound.
- 35—Not closed.
- 36—Not fresher.
- 38—Grocery.
- 39—Imitator.
- 42—Prophetic sign.
- 43—Denotes entrance.
- 46—Chart.
- 47—Expense of water.
- 49—Pages (abbr.).
- 61—City highway (abbr.).

Sends Greetings To Mackenzie

Good Wishes From Baron Byng To Arctic Explorer

Greetings from an explorer of Canada's western Arctic land to an explorer of the eastern Arctic land, was contained in a message received at Ottawa by W. W. Cory, deputy minister of the Interior, from His Excellency Baron Byng of Vimy, on board the steamer Distributor, in his trip to the Arctic Ocean down the Mackenzie River.

This message, which was transmitted to Mr. Cory by O. S. Finnie, director of the North-West Territories and in charge of the governor-general's trip, with instructions to send it to George P. Mackenzie, who is in charge of the annual expedition up the eastern Arctic coast of Canada on the steamer Arctic, read as follows: "Governor-General and party on board S.S. Distributor, send all good wishes and greetings from Mackenzie River area of Arctic circle, and wish you and members of crew every success in the difficult task before you."

The message was relayed to the Mackenzie party on board the Arctic, north of Labrador.

Annoyed But Not Surprised

Halifax Woman Used To Motor Trucks Crashing Into Parlor

Sitting in her front parlor in the two-storey wooden house she occupies in the heart of the business district of Halifax, Mrs. Julia Poole received an unexpected guest in the shape of a huge motor truck that crashed its way through the side of the building and came to rest in the middle of the room with its fenders on the threshold of the dining room door. Mrs. Poole was somewhat annoyed, but not greatly surprised, since this was the third time in as many years that she has been forced to entertain a similar caller.

The truck had been proceeding down Blowers Street, which is steep, when the driver lost control. The big machine started for Mrs. Poole's drawing room, arriving unheralded. The driver was arrested.

Fast Travelling Balls

A cricket ball "hit for a six" travels from the bat at a speed of about ninety miles an hour, while it has been established that a golf ball hit by a first-class driver travels at about 250 feet per second. A tennis ball served by a good hitter leaves the racket at about 125 feet per second.

After a person has been struck by lightning without serious injury, queer marks resembling the veins of leaves often appear on their bodies. These are lesions due to the passing of electricity through tissues.

Auto Tags As Shingles

Oscar Lomdahl, Seattle, Wash., shingled his summer cottage with discarded license plates. The plates are from nearly every state, and 2,300 of them were used.

Would Sell Ships To Russia

German Firms Willing to Sell Soviets On Credit

German shipbuilding firms, including "Krupp Werft" and "Deutsche Werft," have approached the Soviet commercial navy department with an offer to build a number of commercial and passenger ships on credit for 10 to 15 years upon payment of 10 per cent cash with order. The commercial navy department considered the terms acceptable and decided to order several tank steamers as well as passenger ships.

In a memorandum addressed to the central authorities at Moscow recommending the offer, the commercial navy department stated that the interest of the Soviet shipbuilding works will not suffer by placing orders for ships abroad, as for the whole sum assigned by the government for Russian shipbuilding, orders have already been placed with Russian works, and that the cost of the ships which will be built abroad will be defrayed from the profits derived from the exploitation of those ships.

Ruined Wales' Film

Ink Bottle Hurler At Picture By Dublin Nurse

When films of the Prince of Wales on his tour of South Africa were being shown in a motion picture theatre in Dublin, a nurse, Dora Maguire, threw a bottle of ink at the screen, ruining it. She was fined £8 in police court and ordered to compensate a girl musician whose clothing was ruined. The nurse told the police when she was arrested that she had no personal objection to the Prince, but could not stand people cheering those who had helped the "Black and Tans."

(The "Black and Tans" served as an auxiliary police force in Ireland during the disturbed period preceding the establishment of the Irish Free State.)

Unveil Scott Memorial

A national memorial to the members of the Scott expedition, who perished while returning from an unsuccessful dash for the South Pole in 1913, was unveiled near Devonport, England, Captain Scott's birthplace. The memorial was erected by a national subscription fund.

China has an area of 4,225,000 square miles and a population of 450,000,000.

Cannot Ask Fancy Prices

Court in Potsdam Final Guide For Overcharging Tourist
 Six dollars. It is too much for any guide to charge for taking tourists through the beauties of the old and new sights of Potsdam, in the opinion of the court of appeals. Guides for tourists have been charged as high as \$10 a day for the lower court where decision was reversed, but a daily necessity and therefore a reasonable compensation.

The case arose out of a difference some months ago between a party of Englishmen and a Potsdam guide named Max Schatz. The guide had charged 25 marks for taking the party around, whereupon the Englishmen appealed to the court. The lower court believed that anybody who can sell a guide is rich enough to pay whatever the guide may charge. The state's attorney held, however, that Germany, and especially Potsdam, have every reason to encourage the travelling public, and that overcharging those who come to see the people who built Potsdam, thereby making it a tourist business.

The higher court agreed with the state's attorney, reversed the decision and assessed a fine of 20 marks.

Painful Sprains, Bruises, Restored By Nerveine

There is something power in Nerveine which has made it famous in thirty years past. It sinks in deeply, it penetrates quickly, it restores the pain from a sprain and brings back the nerve from a bruise. It is a powerful restorative. It is a powerful restorative. It is a powerful restorative.

With His Hands Tied
 That a young fellow can swim across Toronto Bay with his hands tied together, with both hands and feet tied together, is a feat that may safely be said to be the most extraordinary feat of the kind of which is ever heard of with reliable news account. But it is a feat that may safely be said to be the most extraordinary feat of the kind of which is ever heard of with reliable news account.

BLEMISHES OF THE SKIN.

Commemorate Death Of Martyred Nurse

Edith Cavell Service Held at Jasper National Park
 At the foot of the Great Glacier, which, with its great wings, clings to the side of Mount Edith Cavell, in Jasper National Park, the first memorial service commemorating the death of the heroic British nurse, was held Aug. 2. The date was just ten years after the death of the nurse, who was killed by the Germans while she was nursing the wounded.

Rev. James Hamilton, chaplain of Jasper National Park, conducted the service, which was attended by more than 200 residents of the village and guests at Jasper Park Lodge, who had travelled the 20 miles of mountain road to mourn the spirit of the martyred nurse.

With His Hands Tied
 That a young fellow can swim across Toronto Bay with his hands tied together, with both hands and feet tied together, is a feat that may safely be said to be the most extraordinary feat of the kind of which is ever heard of with reliable news account.

Travelled Twenty-eight Miles

Mouse Had Long Run Through
 A very strange accident befell a young man in his home in England. A mouse had travelled twenty-eight miles from the wall to the tire of the front wheel, evidently looking for a place to hide.

Deadly Black Lightning

Deadly Black Lightning

GLEICHEN, ALBERTA, WEDNESDAY

INVESTING YOUR MONEY

It is unfortunately a fact that a very large percent-
age of women investors are victims of get-rich-quick
schemer. Many stories are told of women who have in-
herited substantial sums of money and have immediately
been persuaded by friends, relatives or interested and un-
principled men, to put their entire inheritance into some
promotion scheme or some type of security which results
in complete disaster.

Women and dependent people should never forget
the fact that nothing more than normal interest return
can be secured on any capital unless some risk is taken,
and the higher the yield on the capital, the larger the risk.
In these days of relatively high investment yields a larger
income return can be secured with safety on investment
capital than was the case twenty years ago. In the ear-
lier days it was difficult for one to invest funds with en-
tire safety and get a yield of much over 5 per cent. Now-
adays, however it is reasonable for investors of this class
to try to secure an average of about six per cent, but they
should not expect to get much more than this without in-
curring a substantial amount of risk.

The need for the family head who would provide for
his dependents after death to do more than see that an
estate is created is generally being recognized. This
recognition has led to more authority being given to
trust companies in the handling of estates while the in-
surance companies now provide policies which are pay-
able in either term or life annuities on the monthly in-
come plan.

It is well said that there is no pocket in a shroud—
that a man cannot take his wealth with him on that last
journey—but he has the means of seeing that what he
leaves is for the benefit of those for whom he would pro-
vide and not for investment highwaymen.

WHAT IS A BUSINESS?

Is a bank the counters, vault, or even the money? Is
a grocery store the canned goods, vegetables, flour, etc.?
decidedly no. The material parts of a business institu-
tion stand stark as a ship's rigging in a calm port without
the personality, the service, the good will and reputation
behind it. The goods are like the body, indispensable
enough, the intelligence—the mind or soul—of the busi-
ness is the management behind it.

Great men have spoken the truth of this. We call
to mind such quotations as "an institution is but the
lengthened shadow of one man," and Shakesper's "the
purest treasure mortal times afford is spotless reputa-
tion." To which we are inspired to add that "one corking
good, upright, honorable, outspoken, go-getting fellow in
every business could put the kibosh on failure."

When we think of business we think of men or wo-
men who conduct it; that is, we think of their ability or
lack of it to render service to the community through the
channel of their chosen business or profession. This is
ample proof that a business is not alone the machinery,
the shelves, the building or the goods. Every business has
its intangible values—its soul as well as its body, its mind
as well as its matter—without which it truly has no busi-
ness calling itself a business.

MAKING A GOOD TOWN BETTER

Gleichen is a good town. You will all admit that
Gleichen is a better town than most other towns of equal
size. Gleichen can do what other towns of its size can
do, if we think so. Now let us make up our minds not to
confine our efforts to little things altogether not far off
from sizeable undertakings.

Big towns are built by doing big things. Big things are
done when the man power and the financial power is
thrown together and made to co-operate in common cause.
There is only one thing that can keep Gleichen from being
a big town and that will be failure to pull together toward
the general well fare. When four horses pull together
conscientiously, we have a genuine four horse power. If
one of them sulks we have only three horse power. If one
of them pulls in the opposite direction, he neutralizes the
efforts of one of the remaining three and we have only
two going forward.

Let us try a few years with a long, strong pull all to-
gether. Nothing is gained by any other recourse. It is
not necessary that we agree on politics, or on dozens of
other subjects. Nobody expects that it would be a good
thing for us if we did. But we must agree on the one big
idea of doing something worth while for Gleichen.

Here and There

Since the first of April up to the
present time approximately seven
million pounds of various fish have
been landed at North Sydney, N.S.,
by local fishermen. The catch made
so far this season is far in excess
of any previous year's catch in the
history of this port.

All tourist and motorists records
are being broken at Banff this year.
There are three times as many
campers as in any other year and
2,400 more bathers than in 1924.
The Canadian Pacific hotel here
and at Lake Louise reports bookings
as being unusually heavy.

More Alberta provincial savings
certificates were sold in the first
six months of this year than in any
full year previously, even including
the big record year of 1920. Since
the beginning of the current year up
to the end of June, the total sales
amounted to \$1,401,600. There is
now close to \$7,000,000 outstanding
in savings certificates.

Radio receiving licenses held in
Canada at the end of last month
numbered 56,063, according to a
statement issued by the Federal
Government. Ontario leads all
provinces with a total of 28,507.
Quebec occupied second place with
7,882 licenses, followed by Saskat-
chewan with 6,551; Manitoba, 4,448;
British Columbia, 3,392; Alberta,
3,004; Nova Scotia, 1,435; New
Brunswick, 736; Prince Edward
Island, 87; Yukon, 22; and North-
west Territories, 5.

A consignment of 21 fox hounds
from the famous Mendip Hunt
Pack, in Somerset, England, was
brought to Canada early in August
by the Dominion Express Company
for the Toronto Hunt Club. The
English papers published photo-
graphs of these splendid animals
and expressed gratification that
good British hounds were being used
on the hunting fields of Ontario.
This is the third such consignment
brought out by the Dominion Ex-
press within recent weeks.

The delegates to the Empire
Press Conference at Australia who
came from Britain and passed
through Canada recently spent sev-
eral days in the Canadian Pacific
Rockies and enjoyed themselves
trail-riding and hiking among the
beauty spots that surround Banff
and Lake Louise. Lord Burnham
and several other distinguished Brit-
ish journalists established new walk-
ing records in covering the distance
between Wapita and Emerald Lake
in two hours, while it took the trail-
riders on ponies two hours and a
quarter to cover the same ground.

Representing education author-
ities and the public and secondary
schools of Great Britain, about one
hundred teachers from the United
Kingdom arrived recently at Mont-
real on the "Empress of Scotland"
and are now touring the country.
Before their departure they re-
ceived a congratulatory message
from King George and on their ar-
rival were tendered an official re-
ception by representatives of the
Quebec provincial government,
prominent educationists and were en-
tertained to dinner at the Chateau
Frontenac by E. W. Beatty.

In a recently published mono-
graph on "The Transportation of
Canadian Wheat to the Sea" Miss
L. M. Fair, M.A., makes the fol-
lowing comparison of Canadian and
United States rates to show to what
extent the resources of our rail-
ways are organized for the bene-
fit of western producers:—

To Fort	Miles	Rates per U.S.
William	bu. wheat.	Rates
From:—	cents	cents
Winnipeg	420	.08 .12
Portage la		
Prairie	475	.09 .13
Carberry	525	.09 .13
Broadview ...	634	.10 .18
Regina	776	.12 .21
Medicine Hat	1,076	.14 .27
Lethbridge ...	1,177	.15 .28
Calgary	1,243	.15 .31

The gold mines of Northern On-
tario are now realizing aggregate
profits of a million dollars a month,
according to estimates compiled at
Timmins, Ont. There was a gross
income of \$2,650,000 during the
month of June.

Six hundred and twenty-four
families from Great Britain and other
European countries settled in the
West on 187,000 acres of land, sold
in the fiscal year ending May 31st,
according to the records of the Can-
ada Colonization Association.

Famous last words: "I can't
swim, but we won't go out far".

High Commissioner Is Making Annual Visit To Dominion

Ottawa.—Hon. P. C. Larkin, Canadian high commissioner to the United States in Canada. Mr. Larkin's visit here is in accordance with the custom which he has established since taking office, of visiting the Dominion to the extent of each year.

While in Ottawa, the high commissioner will hold several conferences with Premier James F. Macdonald, as well as the federal cabinet on matters regarding Canada's interests overseas. Mr. Larkin, it is understood with good reason, is making recommendations to make improvements in the handling of the Canadian branch of government department in London, in view of the recent loss of all the 128 Canadian civil servants under the one roof of Canada House in Trafalgar Square.

It is likely also that Mr. Larkin will be recommended by Mr. Larkin in the Immigration and Trade and Commerce departments in London.

Mr. Larkin, who has been appointed by the government as one of Canada's representatives in the United States, is the son of the late Sir John Larkin, of the recently of the League of Nations in Geneva in September, probably will remain here for three or four weeks, following which he will leave for Geneva.

Large Sum Needed To Complete B.C. Road

Would Take \$1,750,000 to Extend Highway to Prince George

Victoria.—The British Columbia legislature decides to complete the Pacific Coast Highway from Vancouver to Prince George. It must be prepared to spend about \$1,750,000 on the project, according to estimates compiled by the highway department. The estimate for the first section, from Vancouver to Kamloops, is \$1,000,000. The second section, from Kamloops to Prince George, is \$750,000.

The highway itself is in pretty good condition, although it needs a good deal of ballasting work, and the roadbeds will be in the hands of the contractor.

It is hoped to discuss the project with the legislature at the present time, but the legislature will not meet until the next session. It is understood, however, that the cabinet will not be in session before the summer session.

Japanese Captain Flouts B.C. Officers

Informal Vessel Was Under Detention But Put to Sea

Vancouver.—The Japanese captain of the Japanese ship, the *Yamato*, which was under detention at the port of Vancouver, has flouted the B.C. officers. The ship was under detention at the port of Vancouver, but the captain has flouted the B.C. officers and has put the ship to sea.

The ship was under detention at the port of Vancouver, but the captain has flouted the B.C. officers and has put the ship to sea.

See German Member of League

Washington, D.C.—Hans von Thallman, German ambassador, who arrived here to visit the Institute of Pacific Relations, in a statement to newspapermen, predicted the end of Germany from the League of Nations. He said that Germany would be a member of the League of Nations, but he said that Germany would be a member of the League of Nations, but he said that Germany would be a member of the League of Nations.

Success For Harbours

Ottawa.—D. F. Warren, assistant minister of the Interior, has been successful in his efforts to secure the approval of the federal cabinet for the proposed extension of the Great Canadian Highway. The extension of the highway would be a great benefit to the people of the Dominion.

To Buy Machinery

Minister, Eng.—A delegation from the German government has been sent to the United States to buy machinery for the purpose of rebuilding the German navy. The delegation is led by a German official and is expected to return to Germany with a large amount of machinery.

Australia Benefits From Preference

British Government Pursuing Policy of Assistance to Producers

London.—Australia is reaping the largest benefits from imperial preference granted by the British government, as was generally pointed out by the British cabinet in a statement made last night.

The London Times states that according to the latest estimate, Australia's preference scheme to the extent of £250,000 in the current year, on value added, is the largest benefit from imperial preference granted by the British government.

The government is also making a large effort to help the producers in the Dominion. The government is also making a large effort to help the producers in the Dominion.

Troops Removed From Nova Scotia

Sent to Colliery Districts After Riot

Halifax, N.S.—The thousand or more troops which have been stationed in the colliery districts of Nova Scotia since the middle of June, have been removed. The troops were sent to the colliery districts of Nova Scotia since the middle of June, have been removed.

The troops were sent to the colliery districts of Nova Scotia since the middle of June, have been removed.

Cattle Attacked At Vancouver

Stockmen Warn Well Up With Exhibit of Ayrshire

Vancouver.—J. D. McGregor, of Vancouver, B.C., has had things pretty much his own way in the Yukon. He has been successful in his efforts to secure the approval of the federal cabinet for the proposed extension of the Great Canadian Highway.

Marital Law in Rumanian Area

Bucharest, Rumania.—The cabinet has decided to extend the law of marriage to the Rumanian area. The law of marriage will be extended to the Rumanian area.

Ex-President Opens Course

Chicago.—The late President of the United States, Woodrow Wilson, has opened a course of lectures at the University of Chicago. The course is expected to be a great success.

No Advance News About Wheat Pool

Ontario Minister of Agriculture Just Guessing Said MacPillip

Windsor.—A recent interview given by the Ontario minister of agriculture, J. H. MacPillip, has been interpreted by the public as a statement that the wheat pool is not yet in a position to make a statement on the subject.

MacPillip said that the wheat pool is not yet in a position to make a statement on the subject.

HAVE REACHED AGREEMENT ON SECURITY PACT

London.—After stop toward the security pact which Western Europe will sign to help support for peace in the future, the British and French governments have reached an agreement on the security pact.

The agreement is expected to be a great success.

Canada Pays Large Loan

Is Only One of Four Coming Due This Month

Ottawa.—Canada has paid off a loan of £5,000,000 due in London on August 12.

The loan was paid off by the Canadian government.

Germany Approves Treaty

Brussels.—The Belgian government has approved the new treaty of commerce and navigation between Germany and the United States.

The treaty is expected to be a great success.

First Winch of Season

Windsor.—A carload of number one southern wheat from a farm near Windsor, Ont., representing what is believed to be the first shipment of the 1922 crop, reached Windsor, Ont., on August 12.

COMMITTEE HAS REPORTED ON CATTLE POOL

Regina.—A federation of livestock associations rather than a cattle pool, is the recommendation of the committee of inquiry set up by the provincial government to investigate the cattle pool.

The committee has reported that the cattle pool is not yet in a position to make a statement on the subject.

Passes New Tariff Act

London.—The new tariff act, which was passed without amendment by the House of Commons, has been passed by the House of Commons.

The act is expected to be a great success.

Canadian Official Dies in Hong Kong

Commissioner of Immigration Has Been in China Since 1923

London.—The Canadian commissioner of immigration, J. H. MacPillip, has died in Hong Kong. He had been in China since 1923.

Ex-President Opens Course

Chicago.—The late President of the United States, Woodrow Wilson, has opened a course of lectures at the University of Chicago. The course is expected to be a great success.

No Foundation For Report Government Not Bringing 10,000 Ukrainian Settlers Into Canada

Vancouver.—The report that the Dominion Government contemplates bringing 10,000 Ukrainian settlers into Canada, is without foundation, according to a letter from W. E. Egan, deputy minister of immigration, to a meeting of the Vancouver police commissioners.

The report is without foundation.

Investigating Resisting Wheat

Find of Docket Men Only Result

Regina.—Commenting upon the report that R. S. McPadden, of Alberta, has been arrested for resisting the wheat pool, the Regina Herald states that the only result of the investigation is the finding of docket men.

Protest Against B.C. Associated Fruit Growers of B.C. Allege Unjust Discrimination

Ottawa.—Unjust discrimination in the treatment of the fruit growers of British Columbia, is the protest of the Associated Fruit Growers of B.C. against the government.

The growers are protesting against the government's policy.

STRIKE IN PEKIN MAY BE EXTENDED TO BRITISH BANKS

PEKING.—Chinese Christians are trying to concentrate in one institution the protest against the British government's policy in China.

The protest is expected to be a great success.

SUNDAY SCHOOL LESSON

THE MACDONALD CAN. AUGUST 27

Golden Text: Come over into Macedonia, and help us. Act 16:9.

Lesson: Acts 16:1-15.

Questions: Verses 1-15.

Formal Request For Return Of German Property In Canada

Will Endeavor To Equalize Rates

Ottawa.—Formal request for the return of German property requisitioned in Canada during the war, has been made to the Great War, has been made to the Canadian government by Germany, through the German embassy in Ottawa. It was learned here, that the question is under consideration, but it is not yet decided whether or not it will be made by the government for several months.

The suggestion has been made, it is understood, on behalf of Germany, that the view of the status of the operations of the Dawes' reparations plan, and the benefits to be received through such operation by Canada, action toward the release of requisitioned German property in this country might be made.

Will Perfect Plans For Uniting Veterans

Chairman Appeals For Co-operation in Work to be Undertaken

Ottawa.—The Canadian Veterans' Association, which has accepted the honorary secretaryship of the committee, which is to be formed to perfect plans for the uniting of the various veterans' organizations in Canada, has issued a call to the public to perfect plans for the uniting of the various veterans' organizations in Canada.

Satisfied With Grain Act

Final Draft Should Please Farmers Says Laidley, B.C. Rep.

Vancouver.—Satisfaction with regard to the final draft of the new Canadian grain act, is expressed by the B.C. representative on the Royal Canadian Mounted Police, by Leslie H. Laidley, chairman of the board of grain in Canada.

India Objects To Protocol

Claims It Would Mean Great Military and Financial Burden

Ottawa.—In a communication given to the League of Nations, the Indian government declares that the Geneva protocol would be a financial burden on India.

Chinese Coolies Cause Strike

Shanghai.—Chinese coolies on strike, because they have not received strike pay which their leaders had promised them, overran the Chinese city of Shanghai, making demonstrations and looting food shops. Police fired once into the crowd, wounding one man, but were helpless to prevent further trouble. The disorder, however, ceased by evening.

The Farmer's Wife Should Have a Bank Account

ON most farms the hens and other poultry are the special care of the farmer's wife, and the money that comes from this source is regarded as her own.

This money, if deposited regularly in a Savings Account, will soon grow to a considerable sum. Several hundred dollars in the Bank will give a wonderful feeling of security.

SUNDAY EVENING AT THE UNITED CHURCH

A congregation that comfortably filled the church gathered Sunday evening when Dr. J. T. Ferguson of Calgary was the preacher.

In the place of the ordinary discourse the doctor described the great service in Toronto on June 10 when the United Church of Canada was constituted and the great council that followed. Following the sermon Mr. P. MacLean and Mr. W. R. Johnson were set apart as elders and will with the minister comprise the first session of the local congregation.

The gift of a communion table and offertory plates from the Ladies Circle were received and dedicated by Dr. Ferguson.

The two special selections by the choir under the leadership of Mr. O. Cantelon were splendidly given and added much to the worth and success of the service.

Gifts of flowers had been made and arranged to the greater pleasure of the congregation. Altogether the service was one of the most successful held in the church for a long time.

Politics continues mighty quiet in this district.

Mrs. Wing, of Lethbridge, is visiting Mrs. Chris Bartsch, and meeting many former friends.

MINUTES OF BLACKFOOT M. D. MEETING

prove of the opening of this road at the present time but recommended that a bridge be constructed across the Crowfoot Creek east of the S. E. 19-23-21-4.

Coun. Maynard: That we ask the government to build this bridge at an early date. Carried.

The secretary reported that Mr. Thos. Lessard had sent in to this office his affidavit that he is owner of the south half of 21-2-21-4; that this affidavit had been forwarded to the hall board at Calgary together with the resolution of this council recommending that the claim be paid; that the board were not yet satisfied that he is owner of this land and were holding up settlement; that Mr. Lessard had written this office stating that if payment were not made at once he would take the necessary steps to collect; that this letter had been forwarded to the board at Calgary and Mr. Lessard notified to that effect.

(Continued next issue)

NOTICE

Notice of sale under the Domestic Animals Act.

The following animals were impounded in the pound kept by Frank Bate and situated on the S. W. 3-24-21-4, on August 24th, 1925, and were sold to N. H. Reun, of Chancellor, Alberta, on Sept. 7th, 1925:

One bay filly, two years old, weight about 750 pounds, star on forehead, right hind foot white, no visible brand.

One buckskin filly, one year old, weight about 400 pounds, no visible brand.

One buckskin mare rising three years, weight about 900 pounds, star in fore head, no visible brand.

For further information apply to C. B. HYNDMAN, Secretary-Treasurer.

TOWN AND DISTRICT

Mr. and Mrs. Bowen and family, of Brantford, Ont., are visiting Mrs. A. Naylor.

Miss Jean Maclean left last Sunday morning to study for a nurse at the Sisters of Providence Hospital at Moose Jaw.

Remember the dance after the school fair Friday night in the Gleichen Com. Hall. Everyone will be there you included.

James Mac, the popular motion picture operator, is happy in the arrival of a son and heir at Gleichen on Wednesday, Sept. 9th. Both mother and child are doing well.

Mrs. Burkeholder, of Red Deer who has been visiting her brother C. W. Harrison, left last Thursday for Vancouver to visit her sister, Mrs. Q. Landels.

J. A. Aasgard arrived from California three weeks ago to look after the harvesting of his 400 acre crop of wheat at Milo and will remain until the wheat is safely in the elevators. He is looking fine and well pleased with his crop this year.

After a vacation of two months the Gleichen Women's Institute will meet in the Community Hall parlor, Tuesday evening, Sept. 28th. As there is a lot of business to transact a full attendance of members is requested sharp at 8 o'clock.

Really now can you blame the threshers if they say a few cuss words about the weather. Last Wednesday it rained, Thursday it rained some more, Friday some more a little Saturday but Old Sol put in an appearance and on Sunday and Monday was on the job both days in fine shape, Tuesday the threshermen began to get ready for operations this morning, but alas this a.m. it is blowing and raining as the kiddies say "pitchforks with sawlogs for handles."

NEW TOM MIX PICTURE Pretentious Production

Saturday, September 12th

Admirers of Tom Mix, with the inseparable Tony and the more recent co-star, Duke, the dog, will have the opportunity to see their favorite in a new wonder picture when "Teeth" comes to the Gleichen Community Hall next Saturday, Sept. 19th.

In this his latest vehicle he appears as Dave Deering a happy-go-lucky wandering prospector, a lover of his horse Tony, and later a dog Duke, that he finds sorely wounded. From this point the story moves with intensified action, with many realistic scenes, one vivid feature being a real forest fire. It is an ideal vehicle for Mix.

"Teeth" was directed by J. G. Blystone for William Fox and was adapted from "Sonny" the popular novel by Virginia Hudson Brightman

IN MEMORIAM

In loving memory of Felix Jones, born November 10th, 1896, fell asleep in Jesus, September 14th, 1923.

To all his friends he was a benediction. To his parents he was always kind, obedient and true. While our hearts bleed for him we know where he is, and know he is waiting for us.

G. T. Jones, father, mother, brothers and sister.
